IN THE PRESENCE OF HOPE

The "Legionaires of Christ", an organization established in 1941 by a young priest, was born from the religious persecution he witnessed as a boy in Mexico. Its mission was to advance a Gospel of love, mercy, forgiveness and peace, welcome and respect.

Who could have predicated that 70 years later, what had started from very humble beginnings, would grow into a movement aimed at the evangelization of a culture and promotion of authentic human values in 22 countries.

Hombre Nuevo (New Man) and *Guadalupe Radio* are two connected media apostolates of the Legion of Christ in El Monte, California. We use radio and television to reach Spanish-speaking audiences with the Gospel message.

Founding a radio apostolate is never easy, and *Hombre Nuevo* has had its fair share of struggles. Father Juan Rivas was searching for sponsorship of an ailing television program when he happened to visit Our Lady of Guadalupe parish. This is where he found the support he needed to get the apostolate off the ground again. In August 1987 a new radio station, dedicated to Our Lady of Guadalupe hit the airwaves delivering its message in an attractive, relevant manner, changing the lives of those who listen. Programs are engaging, inspiring, substantial in content, practical in application, with plenty of real-life stories and a good dose of humor.

As the Hispanic population grows within the United States, the ministry will become even more important not only for the future of individuals and families, but also for American society as a whole. What will the many new Hispanic families in the US bring to the table as they become integrated into the American social fabric? What values will they live and promote in their private, professional and political lives?

Hombre Nuevo and *Guadalupe Radio* are there to make sure that coherent, profound, and mature faith are strong, along with healthy family values.
